Whereas, as of October 2022, the National Marine Sanctuary System is a nationwide network that conserves spectacular oceans, coasts, and Great Lakes waters;

Whereas national marine sanctuaries protect biodiversity, safeguard extraordinary seascapes, historic shipwrecks, and sacred cultural places, and provide abundant recreational opportunities;

Whereas national marine sanctuaries provide opportunities for community-Tribal partnerships to preserve the traditional ecological resources and cultural sites of local Indigenous peoples;

Whereas the conservation of marine ecosystems is vital for healthy oceans, coasts, and Great Lakes, addressing climate change, and sustaining productive coastal economies;

Whereas national marine sanctuaries support coastal communities and generate billions of dollars annually in local economies by providing jobs in the United States, supporting commercial, Tribal, and recreational fisheries, bolstering tourism and recreation, engaging businesses in stewardship, and driving the growth of the blue economy;

Whereas national marine sanctuaries connect people and communities through science, education, recreation, and stewardship, inspiring community-based solutions that help individuals understand and protect the most spectacular underwater habitats, wildlife, archaeological resources, and cultural seascapes of the United States;

Whereas national marine sanctuaries are living laboratories to conduct cooperative science and research to improve resource management and advance innovative public-private partnerships;

Whereas national marine sanctuaries can help make the oceans, coasts, and Great Lakes more resilient by protecting ecosystems that sequester carbon, safeguarding coastal communities from flooding and storms, and protecting biodiversity;

Whereas the United States is a maritime nation, and the oceans, coasts, and Great Lakes are central to the way of life of the people of the United States; and

Whereas engaging communities as stewards of the waters protected as natural marine sanctuaries makes natural marine sanctuaries unique and provides a comprehensive, highly participatory approach to conserving marine ecosystems and the Great Lakes for current and future generations: Now, therefore, be it
